

C5668: Checking the the authorization on the site with invalid data

Type	Priority	Estimate	References
Other	Medium	None	None
Automation Type			
None			

Preconditions

- 1. The main page is opened.
- 2. The user is registered.

Steps

Steps

1	Input the invalid e-mail address on the "E-Mail Address" field (specifically symbols !&?, without @, only numbers, without domen).	The valid date is not accepted on the field. The field is highlighted in red.
2	Input the invalid password in the "Password" field (only Cyrillic characters, specifically symbols, only numbers).	The valid date is not accepted on the field. The field is highlighted in red.
3	Click the "LOGIN" button.	The error messages about inputting the invalid date on the "E-Mail Address", and "Password" fields are displayed. The fields are highlighted in red.
